TopAir

GPRS & IP
PERSONAL MONITORING

The TopAir GPRS & IP Personal Monitoring is supplied with a pre-installed World SIM Card which provides redundancy in the case of loss of signal on the primary network.

The unit allows the user to control the alarm panel or receive events via TopAir cloud network. This provides a polled connection to the unit which will signal a loss of communication in the event of an interruption in the GPRS signal to the device.

ADVANTAGES

- Cost-effective solution for residential properties

- Constantly monitored GPRS connection

- Using smartphone to control the alarm system with mobile apps

- Remotely isolate zones

- Wireless keyfobs and 3rd party ONVIF IP Cameras

SMART FEATURES

- ○ Mobile application
